NESTABLE, EXTREMELY LIGHT WEIGHT PLASTIC PALLET

Technical Data

Dimensions*¹	48.0 x 40.0 x 5.2 in	1219 x 1016 x 132 mm
Weight*¹	ACM 12.0 lbs PE 11.0 lbs	ACM 5.5 kg PE 5.0 kg
Load capacities*²		
Static	3500 lbs	1600 kg
Dynamic	2200 lbs	1000 kg
Racking	—	—
Bottom support	9 feet	
Entry	4-way	
Safety rim	0.2 in	5 mm
Nesting height	1.2 in	31 mm

¹ The pallet dimensions and weight are variable. * ² Guideline values are based both on experience and parts of test ISO 8611, which tests with evenly distributed loads at room temperature (20°C). Varying data may result from different conditions of use. Your specific requirements can be identified upon request. * ³ Minimum quantity required. - We reserve the right to change any of the stated information without prior notice.

Options

Material	Color
ACM, recycled material	black
PE, recycled material	black

Individual marking³

3 snap-on bottom skids – see CPP 103

Shipping Quantities

Pallets per 53' truck: 2340 (78 per stack)

Pallets per 40' HC container: 1380 (76 per stack)

Features

- > Cost effective
- > Very light weight and low height
- > Easy and safe to handle
- > Excellently suited for air cargo
- > Reduces freight costs by volume: 55 pallets = 6 feet height
- > Maintenance-free
- > Resistant to insects, bacteria and fungi
- > Environmentally friendly product: 100% recycled plastic version available, completely recyclable

Leading impact bumpers around the pallet perimeter.

CPP Plastic Pallets

Export pallets

Our Send & Forget™ export pallets enable us to offer a solution to export-oriented companies which is both economically efficient and environmentally friendly. Increasingly integrated international commodity flows call for plastic pallets which provide a high added value to customers while meeting high environmental standards more than ever before. Our export pallets are made using a specific

recycled ACM material. They are characterized by their lightweight design and by their particularly advantageous price. Obviously, nobody would want to invest a high amount of money in load carriers especially when exporting goods.

Logistic pallets

Our logistic pallets are sturdy long-life storage aids which have stood the test in high-bay warehouses, automated conveying

and storage systems and in the entire field of distribution logistics. Achieving a high number of cycles is the key to cost efficiency in this area.

Depending on the needs of every application, our pallets are manufactured using either type-specific PE recycled material or virgin material. In most cases, our recycled plastic material will provide an alternative which is both economically efficient and environmentally sound.
